Still looking for family and ancestors from Berden. I love the Berden site, and the village from the Google Earth satellite is very beautiful. I can zoom in close enough to see houses and buildings clear. The whole place looks great to me. If anyone knows anything about the Berden family of any varataion on the name, I'l looking for relatives and ancestors and need your help. My site is <http://www.tribalpages.com/tribes/rosco>. e-mail is, dalton_bearden62355@yahoo.com. Thank you very much. Again the site looks great.:)
